DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 rejected under 35 U.S.C. 102(b) as being anticipated by US 4,989,775

(Shimajiri). Shimajiri teaches applying a flux having a particle volume distribution lying within the area bounded by Curves 1 and 2 of FIG. 10 to the components to be joined, wherein said flux is applied dry and electrostatically charged, and thereafter heating the components to braze them together (col. 2, ll. 30-68); wherein said flux has a particle volume distribution lying within the area bounded by Curves 1 and 2 of FIG. 11 (col. 2, ll. 30-68); wherein said flux is a potassium fluoroaluminate flux (col. 2, ll. 30-68).

Response to Arguments

Applicant argues that Shimajiri does not teach the claim 1 limitation that the "particle volume distribution [lies] within the area bounded by curves 1 and 2 of figure 10." The examiner disagrees. Shimajiri teaches the flux can be pulverized in a range from 2 um to 80 um. That is, the examiner interprets Shimajiri to teach the flux can be pulverized, inter alia, to have all particles in the size of 2um or all particles in the size of 80um. Since all particles in the size

of 80um are bound between curves 1 and 2 of figure 10, it is the examiner's position that Shimajiri meets the claimed limitation.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
